The 25 Best Albums of 2017

24. Kip Moore, *Slowheart*

The Georgia-bred singer and songwriter struggled to find a home for his killer 2015 LP, *Wild Ones* — both on country radio and in customers' libraries. So for his third outing, *Slowheart*, he simply stopped trying so dang hard. Instead, Moore took a few months off to travel and let the new music develop naturally. The result? 13 heartland-rock tracks that make up the most thrilling set of his career. —M.V.
