BRETT YOUNG MAKES 'JIMMY KIMMEL' SWOON WITH 'LIKE I LOVED YOU'

Brett Young is bringing his pop-country sensibilities to the masses.

The rising star stopped by Jimmy Kimmel Live! on Tuesday night to perform his new single, "Like I Loved You." It's a melancholy ballad about heartache, delivered with expert precision and emotion and sure to climb the charts.

Young wasn't done with the one-song effort, though. He also performed his introspective and sweet hit, "In Case You Didn't Know."

Watching him perform, it's easy to see how this soulful California native knows how to push all the right buttons in the romance department.
