NASHVILLE SKYLINE: Signs of New Music From Kip Moore

Kip Moore *Up All Night*: I have to say I have not heard a more compelling and appealing new singer-songwriter-performer since Jamey Johnson came along. And I don't hand these awards out in Cracker Jack boxes. Moore has earned the right to be heard with his impressive debut album, *Up All Night*. What separates him from all the new formulaic back-road beer-and babes writer-singers? Songs that scratch and kick at you and plead and then demand to be heard. His vocals are urgent and gritty, the gifted voice of a true storyteller working at full throttle.
