the nominees
for the 52nd
ACM Awards
with the band
in February.

THE BEAT GOES ON

WHEN GRAMMY- WINNING TRIO

Lady Antebellum announced they were going on hiatus in 2015. I worried that one of my favorite groups was breaking up. But my country-music crisis was averted when I learned about their sixth studio album, *Heart Break* (June 9). The title track is hands down my favorite; it's not about a ruined romance, but rather putting your heart on pause. When lead vocalist Hillary Scott sings, *Because what I really need is a reset and a deep breath, I can't help but think, Girl, we've all been there.*

THE WORLD
