Lanco, "Save Me"

Isn't everyone looking for a little salvation, even if it's just for one night? The members of Lanco find it in the love of a good woman in this new song, which benefits from the quintet's strong harmonies and an easy-going vibe that wears well with repeated listening.

The tune is a tribute to the band members' wives, says drummer Tripp Howell. "Brandon [Lancaster], Chandler [Baldwin] and I were sitting on an L.A. patio one day reminiscing about how trouble can sometimes follow us but we're lucky to have our spouses to keep us in check," he says. "We took the song back to Nashville and focused on how that right person can be the ying to your yang. We're super proud of this one."
